Oliver Stone Nat Press Club 1/15/92

On return to the charge that he rewrote history he says there is no official, correct history. What is his answer.

Says should get less for charge "in three days notice" not to mean non-fact represented as fact

He is not really defending himself against the charge and attacks others & the Warren Report.

Then he goes into magic bullet again saying the bullet "jumped" in "zig zagged" "like hitting tornado"

He then attacks the press, Newsday, news who have written a speech against him.

Says woman was Mary Ann Mitchell when Life bought JFK film

If he is opposing the FBI's fear of the Bolton Fords, not clear.

Goes into "The Hampsters in Dealey Plaza" as per read.

15 minutes into speech he says his fellow "thug guys" assassination team over Viet Nam "playing Russian book and talks about JFK's plan to get out. If true Neal does not prove this is why he was killed.

After 2 years he is back attacking.

Refers to movie as giving Americans "information" about their "history".

Says we should "be told the full truth about the assassination."

most of his answers are not answers but are speeches.

Lots both facts & non-facts - Shaw was CIA.

As to why Mary said being one of the judicial body Warren Commission he could not believe & based on 4 answers why. He said they merely asked Mary & then as usual rambled without responding.

Says Mary Ferrell told him that he could testify Nov. 24 in 3 weeks before Oswald was moved & Bobby died. Dec 6 / 7 ??

Says the evening prior was he told he was "inherited" from a secret service agent.

He wanted to die. Many hints and not to really answer question but instead to make self complicated
